# 2024 Brownlow Medal Guide

Wheelo Ratings

### Introduction

- The Wheelo Ratings Brownlow model predicts Brownlow Votes for every game using Coaches Votes, game margin, polling history and game statistics, including SuperCoach, disposals, contested possessions, goals, and more. The model has been optimised using data from 2012 to 2023.
- Probabilities in this report are based on the results of 20,000 simulations of the Brownlow Medal count.
- Brownlow vote counts in this report represent the average votes received across the 20,000 simulations.
- This Brownlow Medal Guide includes:
  - Probabilities for the player polling the most votes, the player with most 3 vote games, the player polling in the most games, the winner's vote count, the winning margin, and whether there will be an outright winner or a tie.
  - Detailed information for the 20 players with the highest expected votes.
  - Game-by-game statistics for the top 20 players.
  - Round-by-round vote predictions for the top 20 players from every team.
  - The 40 most likely 3-vote games across the season.
  - The 8 most likely players to poll in each game of the season, including their key stats.
  - Predicted leaderboard after every round.
- Please note that ineligible players are included in all analyses unless otherwise noted.
- Probabilities are rounded to 0 or 1 decimal place; 0.0% means that there is <0.05% chance, and 0% means that there is <0.5% chance.
- Check out wheeloratings.com for much more AFL content.
